Marble table tops come in diverse sizes, colors, and edge designs, with the option for customizing to suit specific preferences. Each marble top is accompanied by an plywood board for easy mounting and is finished with an anti-stain polish. Despite these precautions, it's important to note that marble, being porous, may be susceptible to food or liquid stains if not promptly addressed. Therefore, we advise reapplying the anti-stain treatment to the marble surface at least twice annually to maintain its pristine condition

TERRAZZO TABLE TOPS

Terrazzo table tops available in a range of sizes, shapes and widths, standard finishes are available as well as custom on request. All made to order.

TABLE TOP WITH METAL EDGE

Standard thickness: 38mm
(18mm marble + 20mm bonding board)

Metal Frame Material:

- Stainless steel frame
- Aluminum frame
- Steel frame

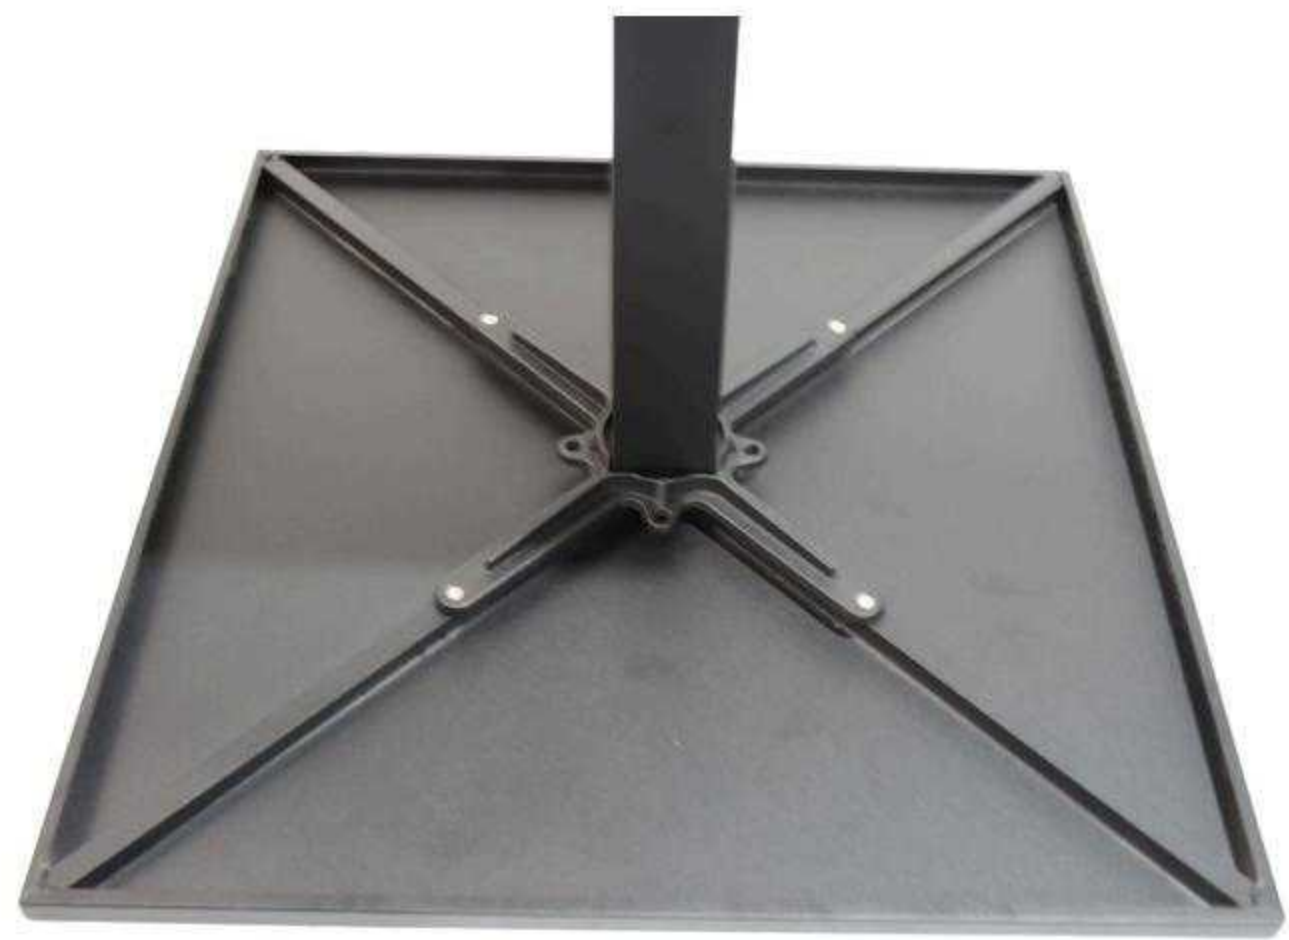

The kind of tops are made by different material tops and with steel/aluminum/SS edge frame, metal edging also known as metal banding is where a metal strip is placed around the table top. Enhanced durability, a contemporary aesthetic, and the ability to withstand wear and tear over time

ALUMINUM TABLE TOPS

ALUMINUM TOPS, FULL THICKNESS 25MM.
FOR INDOOR AND OUTDOOR USE

Aluminum is a robust material that can withstand harsh weather conditions, including extreme heat, cold, and rain. Unlike wood or other materials, aluminum doesn't rot, rust, or warp over time, ensuring that your outdoor dining table will last for years

 After processing, there will be a tolerance of 2-3mm

Edge Finishing

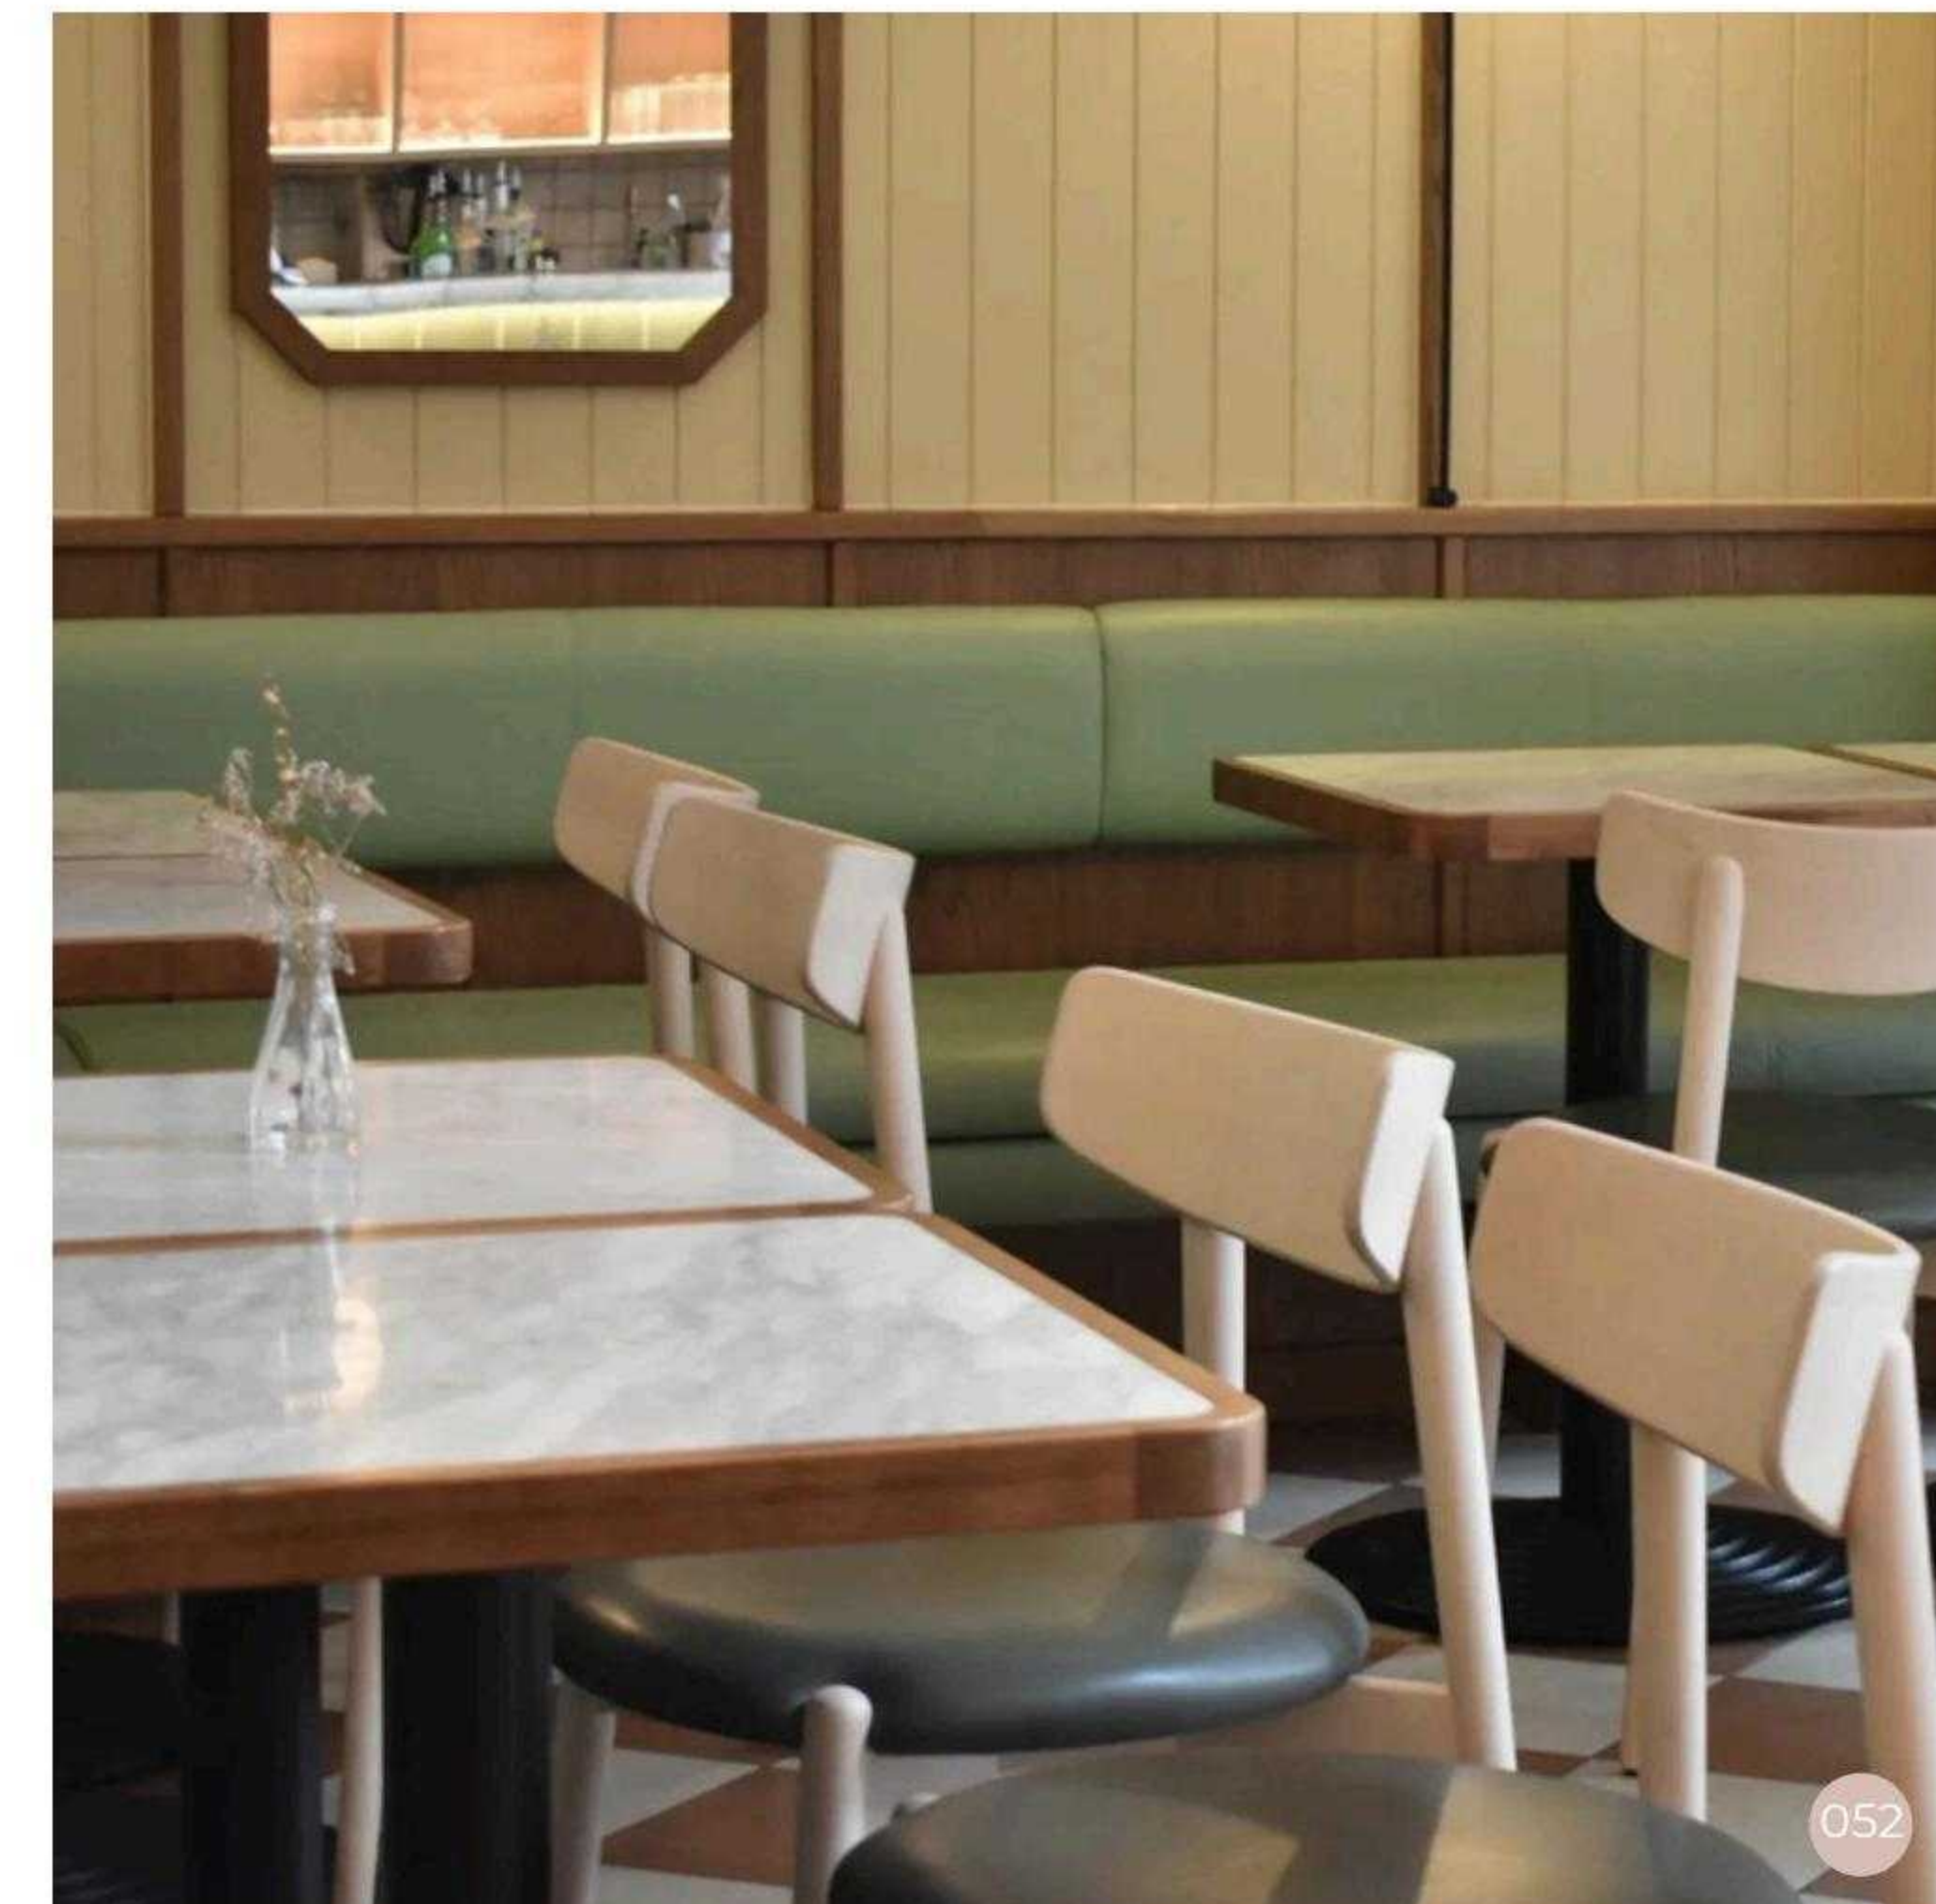

Solid Timber Double Bullnose Edge

TIMER TOP WITH MARBLE/LINOLEUM INLAY

The marble/ linoleum and inlay tabletop is ideal for an Art Deco or vintage style table. A matte black marquina marble top embedded in American White Oak. A perfect top to combine with our table bases.
 For cleaning, simply use a damp cloth with warm water and neutral soap and dry the surface completely. Always avoid any type of abrasive product. Never ever use cleaners such as bleach, ammonia, abrasive detergents or those that may contain alcohol. These products will only damage the marble surface and will probably not remove the stain.
