Marble table tops come in diverse sizes, colors, and edge designs, with the option for customizing to suit specific preferences. Each marble top is accompanied by an plywood board for easy mounting and is finished with an anti-stain polish. Despite these precautions, it's important to note that marble, being porous, may be susceptible to food or liquid stains if not promptly addressed. Therefore, we advise reapplying the anti-stain treatment to the marble surface at least twice annually to maintain its pristine condition

TIMER TOP WITH MARBLE/LINOLEUM INLAY

The marble/ linoleum and inlay tabletop is ideal for an Art Deco or vintage style table. A matte black marquina marble top embedded in American White Oak. A perfect top to combine with our table bases.
For cleaning, simply use a damp cloth with warm water and neutral soap and dry the surface completely. Always avoid any type of abrasive product. Never ever use cleaners such as bleach, ammonia, abrasive detergents or those that may contain alcohol. These products will only damage the marble surface and will probably not remove the stain.
